
METHODIST HOSPITAL UNION COUNTY FOUNDATION HISTORY

In the fall of 1992, the Methodist Hospital Union County Foundation was created. The Foundation is governed by a voluntary, non-compensated board of directors made up of community leaders from the hospital's primary service area, Union County.

The Foundation works to raise funds for the hospital, so that our services will continue to grow and flourish with our service area. Tax-deductible donations through honorary, memorial or annual planned gifts help us offer more to our community.

Our mission is to identify needs in the areas of service and equipment, then raise and allocate donated funds to fulfill these needs.

The present goal of the Foundation is to promote the Foundation to the community and help them understand just how important this Foundation is to our community and hospital.
