Darlene Wefel - EBC President

Ok, I'm spoiled! We have never had such great weather in July as we have this year. Unbelievable! It feels like my favorite time of year to ride is just around the corner. Cool crisp mornings, and an abundance of color.

Check out the ride schedule. If you want to ride out of town your in luck, because it seems like there are rides all around Southern Indiana.

The members at the last meeting got a sneak preview of the Great Pumpkin Metric entry forms and posters. All I can say is they are unusual, engaging, and out-of-this-world. If you havn't already so, contact Linda Clemmer to sign up to volunteer at the GPM. Reserve you favorite job, before they are all gone. Jay needs SAG drivers! Pasta anyone?

Respectfully Submitted,

Darlene Wefel

SAFETY TIPS FOR CYCLISTS

- Always wear a helmet that is properly fitted. Make sure it is adjusted so it covers the front of your forehead approximately the width of two fingers above your eyebrows. That the straps are snug enough to keep it in place if you have an accident.
- Always signal and look back before changing lanes or avoiding road hazards. When looking back you should look over your left shoulder, keeping your left shoulder steady, turn your head down and around to the left. Keeping your arms steady so that your bike moves straight. This will help you to keep a steady and moving in a straight line.
- Use hand signals when turning and stopping. Use verbal signals to let fellow cyclist know of road hazards and approaching vehicles.
- Riding position is always with the flow of traffic. Interesting fact, 20% of all automobile and cyclist accidents are caused by cyclist going in the wrong direction. Indiana law states that it is legal to ride 2 abreast, but in high traffic areas single file is better. Safe Bicycling in Indiana (page 15) states the following: Cyclist should ride on the right if your moving slow compared to traffic, but remember: The farther from the curb you ride, the better motorist can see you-whether they're in your lane, oncoming, or on cross street. Riding farther from the curb keeps cars from passing you on the left and then turning right immediately in front of you-and gives you room to avoid car doors, debris, and potholes.
- Cyclist should always carry identification, emergency contact information, and medical insurance card. As we all know there may be a rare times when you are unable to communicate and this information could be imperative.

NOTES FROM THE EDITOR

Fellow bikers and friends,

What a great end of the summer. When I was teaching in Wisconsin, I used to hate August because it meant school was around the corner. The weather has been perfect this month for riding and I am happy that I've been able to get out.

There has been a lot of discussion the last couple of weeks about riding etiquette. Being someone who rides their bike to work almost everyday, I have become very aware of my actions on the road and how non-bikers perceive them.

I've only lived in Evansville for four years now and I am not going to pretend that I know the inner workings if those who live her. That said, we are all aware of the lack of acceptance that bicycling has gained over the years, even with the initiatives put forth by our city and/or county leaders.

I encourage all of you, member or not, to think about how you ride on the road and what the perception is by others. Evansville is not a west coast city where riding is more of an accepted activity. Because of this, it will take some time and concentrated efforts to break the negative perception of the public.

Bicycling is bigger than the EBC or any other group in this area. Think about how you want the city to view you, the EBC and the bicycling community next time you go out riding. It might not be a big deal to you, but small actions can leave a big impression.

EBC NEWSLETTER GOING ELECTRONIC

Remember when I said that the September newsletter would be coming to you electronically? Whoops!

I had all intentions of being done with the process by now and I was hoping that I would have this in your e-mail inbox

I appreciate your patience with my "empty promises" and will get the new format out by the end of the year.

EBC AND EVSC AT IVY TECH

For the second straight year, members of the EBC assisted in the presentation of forty eight brand new bicycles to the most deserving participants in the Ivy Tech Safe Schools & Healthy Students Bike Safety program. The program is sponsored by Ivy Tech in cooperation with the Evansville Vanderburgh School Corporation. The program is coordinated by Dave Schutte and EVSC school board member, Chris Kiefer.

This large contingent of EBC volunteers was quite satisfying for a weekday afternoon. Dan Armstrong, Diane Bies, Linda Clemmer, Gary Gardner, Paul Jensen, Dan and Leandra Krueger, Cindy and Corey Jones and Randy Silke all attended. During a scheduled snack time, the members introduced themselves and discussed anything about bikes with the kids.

Paul Jensen spoke about the purpose of the club, how it feels to own a new bike and a video presentation and brief discussion of bicycle safety. The bicycles were awarded to students in six school districts. Presentations were made by Police Chief Brad Hill, Sheriff Eric Williams and EVSC Superintendent of Schools, Vincent Bertram. The winners were determined by their respective counselors who rate the attendance, attitude plus the behavior of each participant during his/her participation in the program.

A total of eighty-eight bicycles were awarded this year with the other forty being distributed at their on site location at an earlier date. There were approximately 240 boys and girls in attendance. Each bike included a lock and HELMET. After the bikes were awarded, the new owners wheeled their bikes to a room where the EBC members helped size the bikes, fit the helmets and answer questions about changing gears, braking and general rules of the road. The faces, expressions, and exuberance of joy of the winners was something that will be remembered by each EBC member present.

BIKE FOR SALE - 2005 Women's Orbea Road Bike

THE BRIDGE-TO-BRIDGE BLUE HERON BICYCLE TOUR

The BRIDGE-TO-BRIDGE Blue Heron Bicycle Tour is taking place on Saturday - September 27, 2008 in Rocky Point, IN. The ride begins at 7:30 am. The longest rides are 100 miles and 80 miles and travel over two bridges and in two states (Kentucky and Indiana). These routes vary from flat to hilly and are adventures for the experienced rider.

The medium length routes of 60, 40 and 20 miles each travel through the beautiful, rural scenery of Perry County, Indiana and at times pass through the Hoosier National Forest and along the Ohio River (there are some challenging hills).

The shortest ride is 12 miles in length and travels along the Ohio River across flat land and rolling hills - a great ride for young families. We look forward to meeting more bicyclists from your area!

Contact:

SOUTHERN KENTUCKY HERITAGE RIDE

Come ride in two of Kentucky's oldest and most scenic counties. The Heritage Ride will take you past several "smoking" tobacco barns and acres and acres of southern Kentucky farmland.

Whether this is a competition for you or you are just out enjoying the scenery, the Southern Kentucky Heritage Ride is for you. While riding in Logan and Todd County, you will get to experience the gently rolling farmlands of southern Kentucky. And when you need it the most, we will provide SAG stops for you.

You can choose from a 30K, 50K or 100K ride. All rides are fully supported with:

- An ARNP and EMT's on site.
- SAG stops with Gatorade, water and snacks.
- Roving SAGs for on-road aid.

Registration begins at 7:00-7:45 AM (CDT) and the ride starts at 8:00 AM. For more information, contact Alan Hall at: ahall@epbnet.com or (270) 726-6377

Registration information can be found at: <http://www.littlerivercyclingclub.com/heritageride.htm>

OAK LEAF TRAIL - MILWAUKEE, WI

By: Dan Krueger

I had the opportunity to take a vacation in late July and decided to head up to my old stomping grounds in Milwaukee, WI. My wife and I drove up, but she came back to work while I stayed behind with my bike.

Formerly known as the 76 Bike Trail, it consists of a loop around Milwaukee County with a number of trails that break off from it. In total, the path consists of 108 miles of combined asphalt paths, parkway roads and municipal streets with marked bike lanes. Milwaukee County has one of the largest county park systems in the country. Anytime you are riding on a street is to connect you with the next park area.

The large loop has a cut across path that divides it into two smaller loops. This was the first time that I had been on these paths in over 10 years. I had never done the full loop in one shot, only the two smaller halves.

I planned to take the cut across to the main loop along Lake Michigan and head north. From there, I would take the loop around and pull in a century.

Getting to the lake was a little interesting as I noticed that path markers were not placed consistently where they could be found. I came off the path a couple of times usually on city streets. I was able to get back, but only because I am from the area and knew where I could hook up with it.

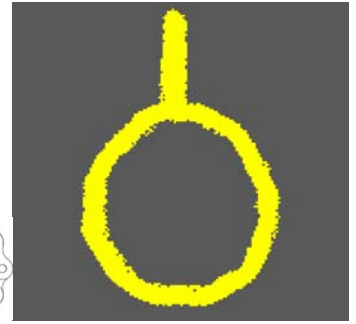

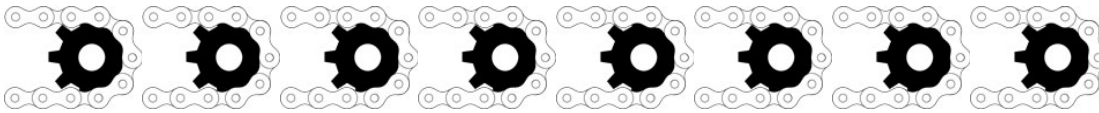

After I passed the downtown area, I followed the path north along the lakefront and realized I missed a turn somewhere. Trying to backtrack, I never found the turnoff and ended up taking the path to the southernmost point of the trail. While I was angered that I had already abandoned my original plans, the northern half of the loop was always a crapshoot for me as I have always been a "southsider."

The southern loop was impressive. Since I had last rode the path, the county had created many paved paths off the roads and paths that did not have to cross through traffic. The paths usually met the roads by a bridge where the path was rerouted to go under the road.

Even though I only completed 85 miles, I loved the ride. As someone who knows the area...or most of it...I was able to navigate the paths to get where I wanted to go. Some of the paths could have used some repair with areas that have a number of weathered cracks in them.

If you decide to head up there and take the paths, I would encourage you to take a map. You can get them in the city or download it online. I'd provide the site, but that is what Google is for.

MARKED UP!

*Ride Schedule and Website News with Tour Director and Webmaster, Jay Vercellotti
rides @ endlessvistas.com*

Tuesday and Wednesday Evening Rides: The Tuesday and Wednesday evening rides will be at 5:30 for the rest of the year. The goal is for the fast pack to leave at 5:30 and for all other riders to leave after them. On these nights, we often have a rather large turnout of fast riders and it would be better if they don't have to pass all the slower riders out on the route. These rides end in October, so this is really just a change for these 2 months. We will see how well this works out and then decide what to do in 2009. So, if you are a slower rider, like me, then please try to let the fast pack leave ahead of you. How fast are they? Heck, I don't know! All I ever see is a blur! But seriously, that group averages 22-27 MPH. If I start out before them at my 13-14 MPH, I'm going to be passed, even if I start 30 minutes ahead. It doesn't bother me to be passed, but it can be frightening for some riders or in certain situations. If you do find yourself being passed by them, remember to hold your line! Don't swerve and be careful if you look back (which can cause you to swerve.) You will probably hear the whirring of 50+ skinny tires spinning across the pavement shortly before they arrive.

Sunrise Century: Reminder, the Sunrise Century is actually Sept. 20th now. This was the century portion of the Clarksville Labor Day Classic ride and it has been split out to a different date.

Shuckin and Truckin Bicycle Tour: On Sept. 20, the Methodist Hospital of Union County, KY in Morganfield is sponsoring the Shuckin and Truckin ride. They don't have a web site, so the registration form is available on the EBC website under the events section as a courtesy. Also, there's a link for a map next to the link for the form. SAG support will be provided by Gilles Cycling & Fitness.

Club Century: The century is earlier in the month than usual because the weekend of Sept. 20 is overbooked, and the weekend of Sept. 27 is the Pre-Pumpkin ride. That only leaves 2 weeks between centuries, so keep that in mind.

Get out there and ride — any distance at any speed. Just be sure to enjoy yourself along the way.

To assist members in identifying when their membership has expired, memberships that are 3 months or more overdue are listed separately below. Those that are only 1 or 2 months expired are included in the normal roster above. Previously, these names were simply excluded from the listing without explanation. Mileage for former members that have participated in rides in 2008, but whose membership expired prior to January 2008 are not included in the normal roster or the expired listing below.

FYI – Regardless of whether your membership is current or not all miles documented on the individual ride sheets are entered into the system. In other words, even if your membership is several months overdue, I still keep track of your miles so that if you renew your membership all of your miles for the year are credited.

Club Member	Exp.	Ride Host	100 Miles	No. of Rides	Club Miles
Brouillard, Gene	5/1/08			33	822
Bohler, Nick	3/1/08		2	17	702
Bennett, John	5/1/08			16	404
Pollock, Chris	4/1/08			12	364
Seger, Khri	3/1/08			8	213
Weyer, Keith	2/1/08			7	146
Weyer, Brett	2/1/08			5	111
Weyer, Audrey	2/1/08			5	103
Woods, Larry	4/1/08			3	99
Weyer, Brock	2/1/08			4	91
Weyer, Theresa	2/1/08			4	91
Orth, Roger	2/1/08			1	73
