Darlene Wefel - EBC President

What happened to August and September? It seems like just a few days ago it was July 4th and we were in mid-summer. Now autumn is here. The leaves will be changing color soon and the air will be crisp and cool. In case you haven't guessed, this is my favorite time of the year to ride. It's also Great Pumpkin Metric Bicycle Tour season. This year's Great Pumpkin will be spectacular. If you haven't already signed up, please call Linda Clemmer. I'm positive she will need everyone to pitch in and help to make it the best Great Pumpkin ever. I can not express my thanks enough to Linda for taking over as the coordinator this year. She has done a fantastic job organizing and gathering volunteers.

In September, there were many rides to choose from and October ride schedule is full too. One of the highlights of last month included Jake's Day at the Evansville Gun Club. This was the 5th anniversary for Jake's Day and the second year that our club was invited to do bicycle safety education. One hundred children, ages 6-14, joined in a day of fun and education. Kevin Pendley and his son, Nicholas, joined me in helping these children to learn about riding safely and how to protect themselves against road hazards. The activities for the day included archery, exploring the great outdoors, turkey calling, fishing, bicycle safety, turkey heritage, wilderness survival, air rifle shooting, trap shooting, self defense, games, clowns, and a picnic. All the children had a great time. Many of the adults watched our video, and asked many questions about cycling. It was a great day for everyone. (Pictures located on page 3.)

We have another request for a Bicycle Safety Program at St. Paul's Church in Evansville as part of a health and safety day. From at 12:00 noon to 3:00 pm on November 2, we will be showing videos, handing out brochures, and talking about bike safety. Nine years ago, St. Paul's did a health and safety day and they had over 200 people attend. Several seniors at Reitz High School chose this as their senior project. It would be great to have 4-6 club members there to help. If you're interested and would like to get some club miles, please contact me.

For many years, Cinda Alexander and I have talked about riding a century with a good, strong tail-wind, with a SAG vehicle to pick me up after the ride was over. I missed my golden opportunity last Sunday when Ike came barreling it's way through the Tri-State. I had been sick with the flu for several days and had not been riding for almost two weeks. On Saturday, Sept. 13th, Jane and I had decided to ride to Elite Fitness, do the ride and then return home. I was excited to finally get back on my bike after being off for more than a week. That Sunday was very windy and common sense told me not to ride. It might have been fun on the way out, but the ride home would have been a killer. Two hours later, I was so happy that we called it off. Four words that our safety video stressed came to mind, "Ride Safe, Ride Smart." That is exactly what we did. Perhaps next time we have a nice tail wind we'll head out for a fun and fast century.

Respectfully Submitted,

Darlene Wefel

THE GREAT PUMPKIN METRIC SUNDAY, OCTOBER 5

The date of the 27th Annual Great Pumpkin Metric is fast approaching. The GPM is the EBC's primary fund-raiser and your help is needed for the event to run smoothly.

A number of people have already agreed to volunteer for the event. We are still looking for volunteers to assist in the following areas:

PARKING

Gene Van Stone is coordinating parking at the 4H center. Several volunteers will be needed to help park cars Sunday morning.

REGISTRATION

Rusty Yeager is coordinating rider registration Sunday morning and could use an extra person or two to help hand out materials.

GENERAL SET-UP

Gary Gardner and Terry Maurer are coordinating all set-up at the swine barn. Volunteers are needed to serve food, clean tables, etc.

SAG SUPPORT

Jay Vercellotti is coordinating this area and is still looking for a couple of people to help. It's a long route - let's support our riders. **IMPORTANT: The club will reimburse you for gas.**

Don't miss the "out of this world fun." Join your fellow EBC members and sign up soon. We appreciate any amount of time you can spare, whether it be for the whole day or just a couple of hours. Don't forget that club mileage is provided to everyone who volunteers.

To find out what is available, please contact me directly at by email at lclemmer@csc.com or by phone at 812-568-5097. Feel free to contact anyone mentioned above directly.

If you haven't signed up, you are encouraged to show up. There will be someone who can always use an extra hand.

See you at the Pumpkin.

Linda Clemmer
GPM Coordinator

NOTES FROM THE EDITOR

Fellow bikers and friends,

As was mentioned by both Darlene Wefel and Linda Clemmer, October is the month of the Great Pumpkin Metric. It's safe to say that this issue will have a pretty strong focus on this event.

Last year was my first year as an EBC member so I was told I had to do the ride. I forked over my entry fee, hopped on my bike and got my 62 miles, ate some spaghetti and went about my way.

This year is different as I am now an EBC "veteran." I am expected to work for the event. I would love to ride, but membership does hold certain responsibilities and it's my job to make sure I meet them.

I realize that people have other responsibilities and not everyone has this weekend available. That said, an hour of volunteering can be just as effective and being there all day. The question becomes: "What are you able to give?"

For me, it turned out that this was supposed to be one of the few weekends where I was expected to work. Thankfully, an overly work-heavy month gave me the ability to talk my boss into getting the day off.

The Great Pumpkin allows the EBC to reach out to the community over the next year and make a difference. It is the hope of the club that you can take to make that difference happen..

JAKE'S DAY - EVANSVILLE GUN CLUB

Jake's Day volunteer staff.

Close to 100 kids attended activities at Jake's Day.

Attendees at Jake's Day watch a video on bike safety.

EBC NEWSLETTER GOING ELECTRONIC

Remember when I said that the September newsletter would be coming to you electronically? Whoops!

I had all intentions of being done with the process by now and I was hoping that I would have this in your e-mail inbox

I appreciate your patience with my "empty promises" and will get the new format out by the end of the year.

EVANSVILLE BICYCLE CLUB APPAREL ORDER FORM (Looking at an October Delivery Date)

Windbreaker-Aero	\$71.00				
Wind Vest	\$57.00				
Club Shorts	\$58.50				
			Grand Total		

THE TRAIL JUNKIE MAD ANTHONY RIVER RALLY By Charlie Miller

On the weekend of August 2, I made the trip to Perrysburg, Ohio for the Toledo Area Bicyclist's (TAB) *Mad Anthony River Rally*. I first learned about this ride from TAB members who suggested I give it a try.

The day offered bright sunshine with low humidity and temperatures in the low 80s making it a perfect day. The ride began at the Perrysburg YMCA near the banks of the Maumee River. The Maumee River Valley and surrounding areas is a flatlander's paradise for bike riding and I realized I had a wonderful opportunity to pull off a rare century, my first of the year.

We left the YMCA and rode west following the south shore of the Maumee for several miles. We crossed the river into the picturesque little town of Waterville and headed east along the north shore until we came to Fallen Timbers Park and State Memorial. This is where General "Mad" Anthony Wayne defeated Blue Jacket's American Indian army led by the Miamis Chief Little Turtle. As a result, the Treaty of Greenville was signed which ceded much of present day Ohio to the United States.

After leaving the park, we entered the Wabash Cannonball bike trail for several miles. We headed west on lightly traveled country roads until we reached the Community of Christ Church at the 17-mile mark where we were treated to Chris Cakes for breakfast.

Back on the road, we re-entered the Wabash Cannonball trail for about another mile and continued westward along the Maumee River valley until we crossed it into Grand Rapids, Ohio. We stopped here after 52 miles for lunch in Grand Rapids' River Side Park. Hot dogs, home baked cookies, and lots of fresh

fruit were made available.

I took the opportunity to take several pictures of the river as well as the canal that once served as a major transportation route to move Ohio made goods across the state. Grand Rapids is nice little town full of 19th century charm. It is a great place to enjoy a nice quite stroll along the tow path river trail or dine out in one of several great eateries. It is also the home of Mary Jane Thurston State Park, a wonderful place to camp for out-of-town visitors.

We leaded east again to Bowling Green, Ohio where we pasted through rich farmlands with fields of tall corn and soybean as far as the eye could see. The roads were well maintained but very narrow. They reminded me of the English country lanes you see in British movies. We were really using the edge of the road to allow the few cars we saw to pass us. At 70 miles, there was a roadside water stop and a place for a short rest.

We entered another bike trail for about a mile and a half before reaching Bowling Green. The locals who ride this area affectionately refer to it as "Blowing Green" because of the strong winds that affect this area. When riding in Bowling Green you have to hope the wind is at your back or it can be a long day. As a testament to the city's blowing winds, we passed a cornfield with four strategically placed windmills generating electricity. We were close enough to them that we could hear the generators hum as they created power. It was an interesting experience.

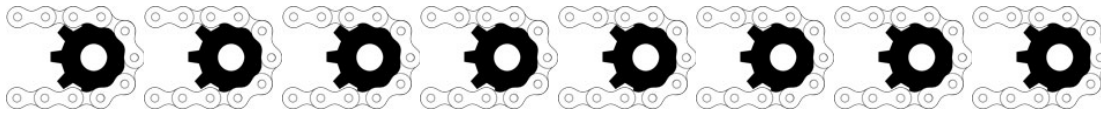

The third and final food stop was at 82 miles in a roadside park in the village of Tontogany. When I had arrived all the sandwiches were gone but they still had plenty of fruit and cookies left. I rested for a little bit and chatted with the few people still completing the century ride, but I was anxious to get in the last 18 miles to complete my ride.

The final stretch turned out to have the only bad commit I can say about an otherwise perfect ride. With seven miles to go to complete the ride, we were routed north into strong head wind and onto a road with such a poor surface it was painful to ride upon. It was almost impossible to go faster than ten miles per hour for a three-mile section without getting shaken off the bike. Once we past that spot, it was smooth riding back into Perrysburg.

I pulled into the YMCA parking lot my computer registered 100.41 miles.

MARKED UP!

*Ride Schedule and Website News with Tour Director and Webmaster, Jay Vercellotti
rides @ endlessvistas.com*

Time Changes for October: The month of October brings a few annual start-time changes. The centuries will start at 8am, the Sunday afternoon ride moves up to 2pm, and the Saturday morning rides will be at 9:30am. These time changes were simplified earlier this year to reduce the number of changes. The Sunday morning ride will remain at 10am year round.

Ride Changes for October: The Wednesday night circuit rides at Wesselman park resume this month. Remember that Head and Tail lights are REQUIRED. The Tuesday and Wednesday night rides ended at the end of September. Also, the Thursday morning ride ended for the season and will not be listed on the calendar (as a non-counted ride) as in past years. We decided that if it doesn't count, it doesn't go on the calendar.

B-R-R Ride: The Bike-Route-Ride (or BRR for "Brr! It's the end of October!") has been organized by Greg Meyer and Dave Stensaas to promote the new West-side bike routes that have been created by the Evansville Metropolitan Planning Organization (EMPO). You can read more about this and planned routes at <http://www.eutsmo.com/home.htm>. This is a free ride and will be on Oct. 25th in lieu of our normal morning ride. The century

was moved to the week before to accommodate this ride. If you have an EBC jersey, please wear it to this ride to help promote the club.

Great Pumpkin: The GPM is on Oct. 5th. Volunteers are still needed. I'll probably still need more SAG drivers by then, so please contact me via email (above) or by phone at 867-7549 if you are interested. SAG drivers are reimbursed for gas. You don't need any major bike repair skills. If it comes to that, then the rider probably has something beyond repair anyway. An air pump, cell phone, basic tools, and the ability to fix a flat tire are enough. Spare parts are provided. Having a truck or a car with a bike rack is important, too. It is a great way to help make the Pumpkin a success and you get club miles for volunteering. Plus you can graze all day at the rest stops! Beware of a gorp overdose—it's not pretty.

Get out there and ride — any distance at any speed. Just be sure to enjoy yourself along the way.

Event Information

Oct. 5: 8:00 AM **Great Pumpkin Metric** @ Vanderburgh 4-H Center. 16, 31, or 62 mi. \$\$ VOLUNTEERS NEEDED!

100 Gerbig, Madison	11/1/08			1	12

To assist members in identifying when their membership has expired, memberships that are 3 months or more overdue are listed separately below. Those that are only 1 or 2 months expired are included in the normal roster above. Previously, these names were simply excluded from the listing without explanation. Mileage for former members that have participated in rides in 2008, but whose membership expired prior to January 2008 are not included in the normal roster or the expired listing below.

FYI – Regardless of whether your membership is current or not all miles documented on the individual ride sheets are entered into the system. In other words, even if your membership is several months overdue, I still keep track of your miles so that if you renew your membership all of your miles for the year are credited.

Club Member	Exp.	Ride Host	100 Miles	No. of Rides	Club Miles
Pendley, Ron	6/1/08		1	63	1948
Brouillard, Gene	5/1/08			38	957
Bennett, John	5/1/08			17	437
Pollock, Chris	4/1/08			12	364
Orth, Roger	2/1/08		2	3	273
Deputy, Brian	6/1/08			8	259
Seeger, Khris	3/1/08			8	213
Woods, Larry	4/1/08			4	132
Nesbitt, Jonathan	6/1/08			3	89
Renne, Jim	2/1/08			2	40
