NEWSLETTER OF THE EVANSVILLE BICYCLE CLUB • EVANSVILLE, INDIANA

"The bicycle has a soul. If you succeed to love it, it will give you emotions that you will never forget." —Mario Cipollini

Paul Jensen The President's Corner

So much to say and so little space! For all cyclists the month of May has been quite busy on many fronts and June is going to continue to keep us rolling.

A review of May found EBC members riding in cold weather gear as well as new summer garb. The Evansville Area Trails Coalition sponsored a second "Walk and Roll Week" the third week of May, coinciding with National Bike to Work Week.

EBC played a significant role in sponsoring a bike rodeo at the kick-off, was responsible for the conduct of the local version of the international "Walk of Silence" ride begun in 2003 to honor those cyclists who have been injured or lost their lives on public roadways. The number participating rose over 25% over 2010.

"Planning For a Bicycle-Friendly Community" was a daylong seminar presented by Bicycle Indiana which was open to the public, but targeting local planners, engineers, home builders, elected officials and cycling enthusiast covering "complete streets" development plus creating a bikeway networks. Club Vice President Ann Pendley and yours truly were active participants.

The League of American Bicyclists, the national advocacy group for cycling, awards cities meeting their criteria dif-

ferent levels of bicycle friendliness beginning with a "bronze" level and moving to the highest "platinum" level of friendliness. The state of Indiana has one silver level community, Bloomington, and three Bronze cities, ---Evansville is not one of them--- Carmel, Indianapolis, and South Bend.

According to a questionnaire to help determine a community's level of qualification, Evansville successfully qualifies in eleven of seventeen categories. It was agreed at the seminar that Evansville will apply for Bronze status in 2012.

EBC prepared for four rodeos, but had one rain-out. Still approximately 130 + young cyclists did participate and were taught the rules of the road and bicycle safety. June looks to be just as busy as rodeo events are planned for the 18th, 25th, and double header 29th and 30th.

Further information is available on the Marked Up page.

Our first year of cycling activities targeting our younger riders will begin on Wednesday, June 1 at 9:00 a.m. at Garvin Park. See the calendar for the location of rides through the month.

Write it Down---Saturday, JUNE 11 at the Old Dam site in Newburgh---The Evansville Bicycle Club is partnering with Bicycle Indiana to have the Ice Cream social Ride open to all begin-

ning at 10:30. This event is open to any and all cyclists. See you there!

Cheers,
Parthur

Our monthly club meeting is on the second Thursday of every month except January at the Pizza Chef in Newburgh Indiana at 6:30 PM.

The Evansville Bicycle Club is a recreational organization that centers its activities around the sport of bicycling. Our membership includes over 200 individuals and families, most of whom live in the Southwestern Indiana area. The EBC has been active for over 25 years, and is a year-round organization.

The primary purpose of the club is to provide the opportunity for its members to participate in cycling activities on a regular basis, over pre-selected and usually well marked cycling routes in group rides. By riding in groups, members enjoy bicycling in relative safety, with knowledgeable cyclists, and reap the rewards of friendship and encouragement. The club is very active, promoting organized "rides" year-round, and as many as 10 per week during the warm weather months. Monthly membership meetings are well attended and provide an opportunity to keep the club well organized and responsive to the needs of its members.

The EBC also hosts a nationally recognized bicycle tour "The Great Pumpkin Metric" the first weekend of October.

How to Take Your Kids Biking

Courtesy of R.E.I. and edited by Youth Cycling Director - Keith Weyer

Children make good cycling companions because they're adaptable, energetic and want to have fun. Cycling with kids isn't, however, quite as easy as hopping on your bike and taking off. Here are some tips.

Before the Ride

- **Do your homework:** Make certain you are familiar with the bike route. If you get lost or the route is longer than expected, your child may suffer not only from a diminished experience, but potentially in more serious ways such as dehydration or exposure.

- **Start early:** Children tend to tire quickly in the afternoon. Take advantage of their energy in the morning and start your ride early.

- **Invite playmates:** Cycling is more fun when shared. If your child has a friend who is at the same level of competency on a bike, bring him or her along.

- **Slow down:** Realize that a 4-mile ride may take an hour. Don't expect to ride as fast as you would on your own.

- **Be aware of traffic:** What might seem like light traffic to you could be a more dangerous situation for your child, whether biking separately or in a trailer.

- **Be prepared:** Carry a tool kit and know how to use it. Also, carry a first-aid kit that includes a few bandages and antibiotic cream to handle minor cases of road rash.

- **Dress right:** Bring a daypack to hold extra jackets in case the weather changes.

On the Ride

- **Take breaks:** Plan on taking a lot of short breaks. Allow time to stop, get off the bike and explore.

- **Drink water:** Always have water available. Drink before feeling thirsty to stay hydrated.

- **Eat snacks:** A well-timed snack can defuse a squabble or bad mood and keep energy going. Kids tend to misbehave more when they're tired, hungry or thirsty.

- **Make it fun:** Choose an interesting route that goes by gardens, streams, views, farms or a favorite shop. Most children are interested in what they can see along the route rather than what's at the end of the road or trail.

- **Express enthusiasm:** If you convey a genuinely upbeat attitude, children most often will be inclined to mimic it.

Family Biking Tips
Even restless toddlers will stop squirming when a bike starts moving. This makes cycling an ideal family outing.
Get Them Involved

- **Let your child participate in the planning.** Show your child a map and point out the route you'll be taking. Let him or her suggest stops or fun things to see along the way. This will help develop a sense of geography and ability to make decisions.

- **Maintain your bike and your child's bike and let them help.** Children can wipe off excess oil just as easily as they can clean a kitchen counter. Plus, showing them how to take apart and reassemble their bicycles takes some of the mystery out of the bike and helps them become more comfortable with its functioning.

Ride Safely

To teach basic biking skills, take your child to a bike trail, empty parking lot, unused basketball court or some place where there's not much traffic. Some points to discuss:

- Avoiding hazards such as curbs, vehicles, stationary objects, pedestrians, broken glass, railroad tracks and other riders.
- Obeying traffic signs.
- Always stopping to look both ways when in traffic.
- Riding with the direction of traffic rather than against it.
- Getting off your bike to walk it across roads.

Until your child is used to shifting gears, choose routes that are as flat as possible. A good rule of thumb: If you would feel comfortable riding the route on a heavy, single-speed cruiser, your child shouldn't have much of a problem on his or her bike.

Taking the Next Step

- Children as young as 7 can handle bicycle tours. Remember, though, to keep each day's mileage short and interesting with plenty of allotted time to reach the day's destination. Also, keep their loads light, but do allow them to contribute to carrying gear.
- Group fun rides, especially those done for charity, are a great way for the whole family to cycle together as well as teach children civic responsibility.
- Sign your children up for races. BMX, mountain and road bike races exist for children of most ages. Sometimes kids find these races to be more fun than traditional team sports.

2011 Guidelines for EBC Mileage Eligibility

Note: These are the first Seven (7) sets of guidelines to be voted on at an upcoming scheduled membership meeting.

1. All regularly scheduled rides are eligible for club miles.
2. Once a scheduled ride is started, only the miles that are ridden at that time count toward club miles. You cannot count the additional mileage if you stop a ride and "come back later" to finish it.
3. All monthly scheduled club centuries are eligible.
4. A maximum of three, one or two day out-of-town non-EBC organized events, not included on the schedule, can be credited for club mileage provided an article is written and submitted for the EBC newsletter.
5. Week long touring events are eligible given all of the following conditions are met:
 - A. A maximum of two ride events will be accepted.
 - B. The member must have registered and paid for the event.
6. Volunteer mileage will be credited to club members that assist with the Great Pumpkin Metric, bicycle rodeos, etc. sponsored by the Evansville Bicycle Club. For the Great Pumpkin Metric and other volunteer events, mileage will be awarded for the longest route available that the member was unable to attend as a result of volunteering. For GPM credit a minimum of three hours of volunteering is required.
7. Any rider that forgets to sign in on the day of the ride has up to 45 days to include a note on a subsequent ride sheet or submit an e-mail to the statistician claiming credit for miles completed on that day. The notation must include the riders name, date (not day) of the ride, and miles completed

All of this will be discussed and voted on at an upcoming membership meeting. If anyone has any comments and cannot make the meeting please send those comments to one of the EBC officers.

MARKED UP!

YOUTH CYCLING PROGRAM RIDE ADDITION

Wednesday morning kid rides starting at 9:00 AM and rotating weekly between Garvin Park & Wessleman Park for the out of school month of June & July.
