All Circuit rides will count as 20 miles.</p>

# MARKED UP!

*Ride Schedule and Website News with Tour Director and Webmaster, Jay Vercellotti  
rides @ endlessvistas.com*

**Summer Schedule:** It's April and that means that the summer rides return to the schedule. On Tuesday evening we will start from the I-164 access road off Olmstead Rd. To find it, take Burkhardt rd. north until you see a "No Outlet" sign and then turn right under I-164. The access road is just on the other side of the interstate. Please park vehicles on the pavement, not the grass, and park on the side of the road closest to I-164. This ride brings out some of the fastest riders around, both members and non-members. If you're like me and you average less than 18 mph, then stay alert and listen for them coming up behind you. The sound of their whirring tires coupled with all the brightly colored jerseys that we cyclists wear can make you feel like you've just been passed by the Tasmanian devil!

Wednesday night's starting location rotates through 6 starting locations during the warm months. This month we will be starting at Elite Fitness on the Truck Pro route. If you are new, then that takes a bit of explaining. We once had a route that started at Oak Hill Middle School. Several years ago we decided to move it to a business called Truck Pro. Then a couple years later we moved it to Elite Fitness. But since we already had routes that started there, we had to call these routes the Elite—Truck Pro routes. This evening ride also attracts some of the faster riders, but that doesn't mean you shouldn't come if you are slower.

On Thursday mornings we start from the Old Dam site in Newburgh. This is the area right down on the river just east of historic downtown Newburgh. You will see a small log cabin across the road from the parking area. Before I started working days, I always enjoyed this ride. There are some hills, but that was always OK because I always had someone to ride with. The riders who show up for this ride

are usually in the 12 to 17 mph range, which fits well with my particular riding style.

The circuit rides are also part of summer and they are held every Thursday evening and Friday morning. Currently, the starting location rotates every week. These rides are ridden less than some of the others, but they can be a good starting place if you are new to the club. As the ride schedule says, "We will ride one to one and a quarter hours on a two to six mile (or so) course. All Circuit rides will count as 20 miles." I don't think any of the loops are up to 6 miles anymore, but one of them used to be. I've always thought of these rides as a fun way to get some miles and try to catch up with friends that I maybe haven't gotten to talk to in a while.

**Route Markings:** After our especially cold and snowy winter, some of the route marks are faded out quite a bit. Also, there are more potholes than normal, and hopefully the cities and counties are hard at work getting those patched up. We are working hard to get the route marks repainted wherever it is needed, but it takes time and a lot of effort. If you are going to ride any of our routes that you don't know by heart, then be sure to check out our Maps & Cue Sheets <http://www.evansvillebicycleclub.org/maps.html> page on the website. Almost every route is mapped on the bikely.com site and we have links on our site to those maps. You can follow those links and find a map and a cue sheet for the mapped rides. I know how frustrating it can be to lose your way, so don't let that happen to you! Print yourself a map to take on your ride. I never had that option when I started with the club, so that's why I started collecting cue sheets for all the rides.

*Get out there and ride — any distance at any speed. Just be sure to enjoy yourself along the way.*

## Event Information

April 17: **8:00 AM Town & Country Bike Tour @ Henderson, KY.** En El Rio restaurant 104 N. Water St. 12, 36, or 62.5 mi. [http://www.hendersontrifest.org/downloads/biketour\\_2010.pdf](http://www.hendersontrifest.org/downloads/biketour_2010.pdf) susanarc@ccol.net \$\$
